MANUFACTURERS' REPRESENTATIVE SINCE 1957
www.GoPSi.com

Senior Fabrication Manager – Washington

Proctor Sales Inc. is the leading manufacturer's representative for commercial and industrial products in Alaska and the Pacific Northwest. We've been in business over fifty years and have become a diversified progressive company with offices and opportunities for career growth in Anchorage, Portland, Spokane, and Seattle. We represent top tier manufacturers of boilers, pumps, burners, hydronic and steam equipment to engineers, contractors, and facilities.

Proctor Sales Inc. is seeking a Senior Fabrication Manager to join our Wilsonville, Oregon office.

Principal Responsibilities:

- Plans, schedules, coordinates, and executes cost estimates for shop fabrication work.
- Develops key quantities and schedule of values for estimates.
- Performs material take-offs and compiles bill of materials.
- Creates fabrication drawings, as required, based on mechanical isometric packages.
- Manages fabrication of piping skids, pump and boiler assemblies.
- Meet construction budgets by monitoring project expenditures.
- Supports the quality process including inspections and documentation.
- Utilizes technical knowledge to assist team with fabrication and installation issues.
- Demonstrates support and compliance with all safety procedures and requirements.

Qualifications:

- Associates degree required, Bachelor's Degree preferred. Additional technical training a plus.
- Minimum experience of 10 years with estimating, fabrication, quality control, design software.
- Familiarity with welding, pipe fabrication, assembly, construction.
- Certificates and experience with AutoCAD 3D MEP, Revit 3D, SolidWorks.
- Ability to read and understand piping drawings, P&ID's, specifications, and procedures.
- Excellent verbal and written communication skills.
- Management experience, overseeing a fabrication team and company resources.
- Ability to perform computer functions such as email communication, Word, Excel, Project, etc. Proficient use of Excel and Project is required.
- Strong attention to detail, follow-through, and customer service skills.

Supervisory:

- Supervises administrative and fabrication resources.
- Schedules work load, monitors time and attendance, and determines overtime for direct reports based on the needs of the company.
- Responsible for shop safety and organization.
- Ensures that direct reports follow all policies and procedures.

- Provides exemplary leadership in creating an environment that motivates and raises employee morale by portraying a service-oriented philosophy in a professional manner.

Proctor Sales offers:

- Comprehensive benefits package including medical and 401K plan
- Factory training and support
- Advanced computer and information system tools
- Dynamic team environment
- Opportunity for professional growth
- Competitive and comprehensive compensation package
- Paid holidays
- A fun place to work with great people
